

Keeping kids safe online webinar

The Internet is an amazing place. Kids can play, create, learn, and connect – the possibilities are endless. But there are also risks.

To help, the NSPCC and O₂ are working together to offer free **30-minute webinars** for groups of parents, grandparents and carers, making it easy for you to keep your family safe online. Webinars are delivered by experienced NSPCC staff.

Topics covered include:

- Why children enjoy using the Internet and how it can help them, as well as the risks.
- Concerns that families might have about their child's use of the Internet.
- Exploring how families can navigate the digital landscape together, safely.

Free to join, the webinars offer lots of practical tips, as well as signposting to free resources and extra support for families.

If you'd like to organise a webinar on behalf of a group (community group, staff team, corporate supporter), or register your interest to attend a pre-recorded webinar, please contact

parentworkshops@nspcc.org.uk

“ It was really informative – I feel more confident about talking to my daughter about staying safe online. ”
